### Meth/Sawed-off Shotgun Nets Prison Time

EUGENE, Ore.—Theron Gilbert Geber, 36, a resident of Coos Bay, Oregon, was sentenced to five years in federal prison followed by a four-year term of supervised release for distributing methamphetamine and unlawfully possessing sawed-off shotguns. According to court documents, in March 2019, agents from the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) learned that Gerber, who had prior state felony convictions, was selling firearms and methamphetamine in the Coos Bay area. On April 4, 2019, an undercover ATF agent met with Gerber for a firearms purchase. Upon entering Gerber’s home, the agent saw drug paraphernalia and approximately 20 to 25 firearms displayed for sale. During the meeting, Gerber stated, “everything’s for sale for the right price.” Gerber then sold the agent a short-barreled shotgun, a Glock pistol, three magazines, three drum magazines, and 91 rounds of ammunition—all for \$600. The agent arranged a second purchase the following week. On April 11, 2019, the agent again met with Gerber inside his residence. This time, the agent purchased an AK-style rifle for \$500 and asked if Gerber would sell methamphetamine. Gerber agreed to sell the agent approximately 13 grams of methamphetamine for \$240. Finally, on April 25, 2019, the agent brokered a third firearm purchase from Gerber. Gerber sold the

agent a second sawed-off shotgun, an AR-style pistol, 181 rounds of assorted ammunition, six 30-round AR-style magazines, and a Colt .45 caliber “Night Defender” pistol for \$1,500. A short time later, ATF agents executed a search warrant on Gerber’s residence and arrested him. As part of his plea agreement, Gerber agreed to forfeit the firearms described in the indictment. On January 6, 2020, Geber pleaded guilty to

one count each of unlawful possession of a short-barreled firearm and distribution of methamphetamine. This case was investigated by ATF and prosecuted by Nathan J. Lichvarcik and William McLaren, Assistant U.S. Attorneys for the District of Oregon. The case was brought as part of Project Safe Neighborhoods (PSN). PSN is the centerpiece of the Department of Justice’s violent crime reduction efforts. PSN is an evidence-based program proven to be effective at reducing violent crime. Through PSN, a broad spectrum of stakeholders work together to identify the most pressing violent crime problems in the community and develop comprehensive so-

lutions to address them. As part of this strategy, PSN focuses enforcement efforts on the most violent offenders and partners with locally based prevention and reentry programs for lasting reductions in crime.

## Drones over the Bay Area

City of Coos Bay release - On Tuesday night, Feb. 4, the Coos Bay City Council approved the acceptance of a State Homeland Security Grant for the purchase of two drones. These small unmanned aircraft systems will be shared by the fire and police departments of Coos Bay and North Bend in a new inter-agency program. Fire and police agencies are using this technology for aerial imaging or reconnaissance. Examples of some of the applications include Search and Rescue missions, suspect pursuit, active shooter scene surveillance, evaluation of fire conditions and spread, and post-disaster damage assessment. Drones can provide real-time aerial images and video in both high definition resolution and thermal imaging without putting personnel at risk. Drones are lightweight, easy to deploy and operate. They provide a perspective that helps firefighters and law enforcement officers better understand the scope of the incident and develop an informed operations plan. The thermal imaging aspect allows the operator to see through smoke, fog, or darkness. The Coos County Sheriff's Office has two drones, but the addition of these tools along with trained pilots dedicated to the Coos Bay/North Bend area allows for a timely response. They also add to the County's resources for response to larger incidents. Coos Bay chose to include the North Bend agencies in the program to provide compre-

two trained and licensed pilots. Training of these pilots will begin this spring and the program should be operational by July of 2020. The amount of the grant award is \$10,700 and will cover the cost of two drones and the training of pilots.

### Central Coast Crime Spree

On February 25, 2020 at approximately 8:36 AM Lincoln County Sheriff's Office responded to the Salishan Golf Course on a report a silver SUV traveling down the golf cart path and through portions of the golf course. The caller reported the SUV was stopped by an employee. The employee contacted two middle aged males in the vehicle. A brief confrontation ensued regarding the subjects trespassing. The suspects then fled the scene at a high rate of speed. Lincoln County Sheriff's Deputies were not in the area at the time of call and

began their response. At 8:48 AM Lincoln County Sheriff's Deputies received a second call from a homeowner near mile post 5 on Siletz Hwy. The homeowner reported an unknown male had entered his home and caused a confrontation before fleeing the house. The homeowner reported seeing a second male and a silver SUV. At 8:59 AM while Deputies and Troopers with the Oregon State Police responded to report of the burglary a third call was reported to 911. The caller, an elderly female, reported while driving south on Siletz Highway near mile post 5, she was flagged down by two men standing next to a silver SUV. She reported one of the men attempted to force his way into her vehicle. Law enforcement officials arrived shortly after and contacted the suspects in the silver SUV. The investigation revealed Damon Michael Hodge age 46 from Portland and his passenger Mark Alan Hays age 48 also from Portland trespassed at the Salishan Golf Course. After leaving the golf course

they traveled to Siletz Hwy near S. Alta Drive where their vehicle ran out of gas. Michael Hodge entered a nearby home and was confronted by the homeowner where he fled from the home. During this time a passing motorist was flagged down by the two men. The motorist stopped to check on them. At this time Mark Hays grabbed the passenger door handle and began forcibly trying to open it. The passenger door was locked preventing the Hays from entering the vehicle. The motorist sped away from the scene and called 911. Michael Hodge was lodged at the Lincoln County Jail on the following charges: Criminal Trespass I, Criminal Trespass II, Burglary I, Attempted Robbery in the third degree, Attempted Unlawful Entry into a Motor Vehicle and Attempted Unauthorized of a Use Motor Vehicle his bail was set at \$212,500.00. ### Missing Fisherman Found

The body of a missing fisherman from the Central Coast has been found floating in Yaquina Bay at Newport. Norman Grant, a crew member on the commercial fishing vessel "Prolifik" was reported missing Feb. 8. He was last seen near the boat's moorage. A search, including divers, did not locate Grant. However, on Feb. 26, another fishing vessel reported hitting something near the Hallmark Fisheries Dock. A local diver found clothing tangled in the propeller. A further search led to the discovery of Grant's body.

The man had been reported missing Wednesday but was located by a Douglas County search and rescue team Friday morning, Feb. 21. The Oregon search and rescue coordinator contacted the Coast Guard for interagency assistance due to the area's difficult terrain, which made a ground evacuation too dangerous. An MH-65 Dolphin helicopter from Coast Guard Sector North Bend launched from Air Station North Bend at 1 p.m. and arrived at the scene at 2:15 p.m. The man was hoisted from his location and taken to Coast Guard Air Station North Bend, where they landed at 4 p.m. The man was transferred to emergency medical service technicians waiting at the air station. He was reported to be suffering from hypothermia and dehydration. "The Coast Guard works closely with state and local agencies to keep people safe, and this case demonstrates how good communication and cooperation can help save lives," said Petty Officer Trevor Lilburn.

### USCG Rescues Injured Hiker

SEATTLE – A Coast Guard helicopter crew medically evacuated an injured hiker Saturday, Feb. 22 near Olympic National Park. The 26-year-old man reportedly fractured his ankle while hiking on the Duckabush Trail, west of Hood Canal. He reportedly crawled for eight hours before his phone acquired adequate signal to call 911. A Jefferson County search and rescue team located the man at 4 a.m., rendered first aid and readied him for medevac. A Coast Guard Air Station Port Angeles MH-65 Dolphin helicopter crew launched at first light and arrived at the scene at 7 a.m. The aircrew hoisted the man from his location and took him to Harborview Medical Center. The man was reported to be in stable condition. "We like to train for high-altitude rescues because of the mountainous region we operate in," said Lt. Cmdr. Sam Hill, MH-65 pilot, Air Station Port Angeles. "Because of that training, we were able to overcome numerous environmental challenges to rescue the hiker from a dangerous situation. We thank Jefferson County Search and Rescue for their help locating the hiker and assisting with the hoist."

### Meth/Heroin Bust Douglas Co.

DINT has been conducting an ongoing investigation into the suspected drug related activities at a residence in the Soft Winds Mobile Home Park at 401 North Comstock Road in Sutherlin. Based on that investigation, detectives recently developed probable cause for the arrest of 31 year old Georgina Watson, of Sutherlin, for suspected drug crimes to include possession and delivery of methamphetamine. On Thursday, February 6th, 2020, DINT, with assistance from the Sutherlin Police Department, executed a search warrant at the residence. Detectives located a substantial quantity of methamphetamine as well as a small amount of heroin and numerous other drug related items. The mobile home park is immediately adjacent to Sutherlin's West Intermediate School. Per the Oregon Revised Stat-

utes, there is an additional crime for drug sales that occur within 1,000 feet of a school. In this case, the residence in question is less than 500 feet from West Intermediate School. Watson was arrested and lodged at the Douglas County jail on suspicion of the following charges: 2 counts of Unlawful Possession of Methamphetamine; 2 counts of Unlawful Delivery of Methamphetamine within 1000' of a School; 1 count of Unlawful Possession of Heroin. This is not the first time DINT detectives have searched this residence. In August, 2019, DINT arrested 51 year old Eric Nelson and Georgina Watson from this same residence. At that time, a search of Eric Nelson, Georgina Watson, and the residence revealed approximately 1.3 pounds of methamphetamine, and 3.5 ounces of heroin. Both Georgina Watson and Eric Nelson were charged with several drug crimes. Nelson was convicted of multiple felonies and on October 15th, he received a 111 month prison sentence. Georgina Watson's case is still pending.

### Do you need a Real ID

Something big is happening October first of this year. If you aren't paying attention, it might mean missing your flight out of PDX or any other airport across the U.S. On that date the Transportation Security Administration, or TSA, begins requiring a new type of identification to board a commercial aircraft. The new ID must be compliant with something called the Real ID Act. It's designed to keep us safer in the air, but if you try to board an aircraft using your current Oregon driver license starting in October – it won't work. That's because the current Oregon driver license is not Real ID compliant. Oregon DMV will begin offering a Real ID option on **July 6, 2020**. To fulfill the demand of nearly one million Oregonians who will want the Real ID option, DMV would have to issue 32 licenses a minute every business day from July to October. That's just not possible. If you don't have a Real ID compliant form of ID at the airport, TSA will put you through an alternate identity verification process that could take an hour or more, and you could miss your flight. There is an answer for Oregonians: obtain and use a passport or passport card. The cost of getting a new passport card is roughly equal to that of getting a replacement license with the Real ID option – and you can apply now at one of over 76 acceptance sites across Oregon. To find out more, visit <https://www.Oregon.gov/REALID> By the way, Washingtonians already have the option of getting a Real ID compliant driver license. If you are a Washington resident, go to <https://id2020wa.com/> to find out more.

### Bilked Weyco for \$4.5 Million

EUGENE, Ore.—Susan Tranberg, 61, of Eugene, Oregon, pleaded guilty Thursday, Jan. 30 in federal court to mail fraud, aggravated identity theft and tax evasion after defrauding her former employer, the Weyerhaeuser Company, out of more than \$4.5 million. "Susan Tranberg used her intimate knowledge of the Weyerhaeuser Company to perpetrate a lengthy and complex fraud. She went to great lengths to disguise her actions and mislead her colleagues," said Billy J. Williams, U.S. Attorney for the District of Oregon. "She then took her scheme a step further by evading paying taxes on her fraudulent gains. Her crimes reflect a complete disdain for her employer and utter contempt for her responsibilities as

an American taxpayer.” “Between 2004 and 2019, Susan Tranberg purported herself as a trustworthy and dedicated employee. In reality she was embezzling more than \$4 million dollars,” said IRS-Criminal Investigation Special Agent in Charge Justin Campbell. “She cheated both her employer and the American taxpayers by evading taxes on her embezzled income. The IRS is committed to promoting taxpayer confidence by ensuring every taxpayer pays their fair share regardless of the taxable source.” According to court documents, beginning as early as June 2004 and continuing to January 2019, Tranberg defrauded Weyerhaeuser out of more than \$4.5 million by submitting fraudulent invoices for payment to a fake vendor she created. Tranberg had worked for Weyerhaeuser in Springfield, Oregon in various positions for more than 40 years. At some point in or before June 2004, Tranberg created a fake timber contract between the company and a vendor she named after her mother, who was unaware of the scheme. Over the next 10 years, Tranberg would use her positions in the company’s accounting and finance departments, to request cashier’s checks payable to the fake vendor. During this time period, Tranberg requested and received more than \$2.6 million. In June 2014, Weyerhaeuser transitioned to a new payment processing system. To continue her scheme, Tranberg set up a fake vendor account in the new system and attached a letter purportedly from her mother describing the documentation provided to set up the account. This documentation included a Form SSA-1099 Social Security Statement and a forged Form W-9 Request for Taxpayer Identification Number and Certification. Between June 2014 and January 2019, Tranberg continued her scheme by forging colleagues’ signatures on check requests and using her colleagues’ computer login credentials without authorization to create requests and approve fraudulent payments. All requested cashier’s checks were sent via private or commercial interstate carrier directly to Tranberg. During these final five years, Tranberg requested and received nearly \$1.9 million. Tranberg faces a maximum sentence of 20 years in prison, a \$250,000 fine and three years of supervised release. In addition, a conviction for aggravated identity theft carries a two-year mandatory minimum sentence required to be served consecutive to any other prison sentence imposed. As part of her plea agreement, Tranberg has agreed to pay \$4,581,218 in restitution to Weyerhaeuser and \$807,033 in restitution to the IRS. This case was investigated by IRS-Criminal Investigation (IRS-CI) and prosecuted by Gavin W. Bruce, Assistant U.S. Attorney for the District of Oregon.

### DEQ on Fuel Spill Hwy. 22

UPDATE on North Santiam River Tanker Spill - The Oregon Department of Environmental Quality continues to oversee cleanup and monitoring near the site of a Feb. 16 truck crash and fuel release on Highway 22 about 60 miles east of Salem. Of the 10,600 gallons of fuel on board the double tanker, 7,871 gallons spilled and the remaining fuel was recovered. Fuel is discharging from the bank of the North Santiam River and

a sheen is visible for a few hundred feet downstream of the crash site. Crews began excavating contaminated material this morning and will evaluate disposal options. About 400 feet of hard boom and other absorbent materials are in the river to contain and collect fuel. DEQ will continue to monitor potential impacts to fish and wildlife at and downstream of the site. There have been no reports of impacts to drinking water supplies in the area. U.S. Environmental Protection Agency's On-Scene Coordinator and contractors are providing the water sampling data for hydrocarbon by-products at two- and four-mile intervals in the North Santiam River downstream of the crash site. Oregon Highway 22 will remain closed to through traffic from just west of Idanha to the junction with U.S. 20 (milepost 53-81) until at least Friday or Saturday of this week, according to the Oregon Department of Transportation. This morning, ODOT was able to assess the damage and determined that it will take several days to remove contaminated soil and repair the road where the truck crashed. An area of roadway about 600 feet long needs to be excavated and rebuilt. Motorists traveling to and from the Willamette Valley and Central Oregon can use U.S. 20 and OR 126E as alternative routes.

### Hwy. 22 Fuel Spill

DEQ release - Statewide, OR—Federal, state and local responders continue to clean up spilled fuel and contaminated soil along the banks of the North Santiam River near Idanha - east of Salem and Detroit Lake on OR 22 - following a crash on Feb. 16. The agencies responsible for managing the response are monitoring water quality in the area of the tanker crash. Latest water sampling data from the North Santiam River following the crash and spill shows petroleum-related chemicals are present at levels that decrease with distance downstream from the site. Except for at the crash site, all water samples contained extremely low levels of petroleum-related chemicals, at concentrations far below safe drinking water levels. Petroleum contaminants in river water that may reach drinking water intakes downstream are expected to remain below regulatory standards. Communities closest to the spill pull drinking water from tributaries to the river and not the North Santiam itself. The nearest drinking water intake on the North Santiam is 25 miles downstream from the spill site and below Detroit Lake.

### OR Hwy. 22 Update

ODOT release - ODOT: Valley, No. Coast: OR 22 just east of Idanha is opening to all traffic by 9:45 p.m., Friday, Feb. 21. The road had been closed between Idanha and the OR 22/U.S. 20 junction since last Sunday morning, Feb. 16, when a double tanker carrying fuel

crashed spilling most of its load. A 600 foot section of road needed to be excavated, removing contaminated materials and then rebuilt.

### Guilty for Threatening Mass Shooting

MEDFORD, Ore.—William Gregory Douglas, 37, of Cave Junction, Oregon, pleaded guilty today for threatening to shoot YouTube employees at the company's San Bruno, California headquarters after his account was removed for violating the video-sharing platform's terms of service. "Threatening a mass shooting is a serious crime whether or not an individual plans to act. This is a crime that undermines Americans' fundamental right to live and work without fear," said Billy J. Williams, U.S. Attorney for the District of Oregon. "We will continue to diligently respond to and prosecute criminal threats of violence to the fullest extent of the law." "Using social media outlets to threaten violence of any kind victimizes individuals and undermines the safety of our communities," said Renn Cannon, Special Agent in Charge of the FBI in Oregon. "The FBI remains committed to working with our state and local partners to respond quickly to threats and keep our communities free from violence and intimidation." According to court documents, sometime on or before August 22, 2018, YouTube removed Douglas' video channel for violating the platform's terms of service. In response, on August 23, 2018, Douglas posted five tweets threatening violence against YouTube employees. In one of the tweets, Douglas threatened a "bigger mass casualty" event, appearing to reference a prior shooting incident at YouTube's headquarters in April 2018 that injured three employees. Later, on September 8, 2018, Douglas posted a tweet stating "Hey why do you guys keep ignoring me would it be better if I leave you with no other options like your [sic] leaving me...I'm beyond pissed...I wonder how I should deal with this frustration." Finally, on September 17, 2018, Douglas tweeted a direct threat at one of YouTube's senior leaders saying "...I'm coming for you today #pray." On October 4, 2018, a federal grand jury in Medford, Oregon returned a one-count indictment charging Douglas with cyberstalking. Later, on January 14, 2020, he was charged by criminal information with one count of making interstate communications with the intent to extort. Douglas pleaded guilty today to the latter charge. As part of the plea agreement, Douglas has agreed to pay restitution in full to his victims as determined and ordered by the court at sentencing. Douglas faces a maximum sentence of 5 years in prison, a \$250,000 fine and three years' supervised release. He will be sentenced on May 14, 2020 before U.S. District Court
